

MENINGITIS VACCINATIONS

Due to mandates required by Texas Senate Bill 62, all new incoming students who are **21 years of age or younger** will need to show proof of a meningitis vaccination. Students will not be able to register until proof is presented that the vaccination was received during the five-year period prior to enrollment.

Below is a listing of locations where the meningitis vaccination is available, including costs (without insurance). We encourage you to check with your health care provider and health clinics in your area.
