DEL MAR COLLEGE

Management Development: Production and Logistics Management Specialization

Management Development programs incorporate education and training to prepare individuals for career paths with businesses, non-profit organizations, governmental agencies, and academic institutions.

The Associate of Applied Science in Management Development - Production and Logistics Management Specialization is designed to provide the skills needed to enter the job market or advance in supply chain management positions. The program includes specialized courses in warehouse, distribution, business logistics, leadership, and decision making, as well as general management training.

The growing demand in jobs related to transportation, product distribution, and supply chain management provides new opportunities. Courses in the Certificate in Logistics and Supply Chain Management are designed to prepare for career enhancement or entry into warehousing, purchasing, or transportation related occupations.

Formal articulation and/or transfer agreements have been established allowing graduates with an Associate of Applied Science to continue their education in a Bachelor of Applied Arts and Sciences (BAAS) degree at specific four-year universities, including Texas A&M University-Kingsville. For more detailed information, contact the coordinator of the AAS program.

Practicum

An important component of the Management Development program is an external learning experience established in collaboration with community organizations and businesses. The practicum provides general training and experiences in the workplace. As a student in the program, you will attend a weekly seminar on the Del Mar College campus and concurrently work on management development assignments at a worksite under supervision of the employer.

Del Mar College does not discriminate on the basis of race, color, sex, age, national origin, religion, disability, or any other constitutionally or statutorily impermissible reason.

Management Development

Admissions

Del Mar College maintains an “open door” admissions policy. In order to gain admission to the College and prior to registration, students must complete an Admissions File to include:

- Application for Admission
- Official high school transcript or GED test scores and/or official college transcript(s)
- Placement test scores
- Proof of Texas residency for the previous 12 months to qualify for in-state tuition

Contact the Admission Office in the Harvin Student Center (East Campus) or the Administration Building (West Campus) for information related to admission to the College.

Financial Aid/Scholarships

Financial Aid Services assists students who need financial resources to help pay their College costs. Financial Aid Services provides information on grants, loans, or employment for students with a demonstrated financial need. Many scholarships are also available for students and are awarded based on academic achievement and/or financial need.

More than 5,000 Del Mar students are eligible to receive financial aid each year. Full- or part-time students may apply for need-based financial aid programs or scholarships. The only way for students to determine their eligibility is to apply for financial aid. The best, easiest, and quickest way to apply for aid is by completing the Free Application for Federal Student Aid (FAFSA), which is available online at www.fafsa.ed.gov. Results may be available in 7-10 days. The FAFSA application itself may be mailed; however, this process may take anywhere from 4-6 weeks. The Title IV school code for Del Mar College is 003563. Please note that you must provide the previous year’s income tax information regardless of the application process you choose to employ. (Dependent students **must** provide their parents’ tax information as well.)

Contact Financial Aid Services in the Harvin Student Center (East Campus) or the Coleman Center (West Campus) for further information related to need-based financial assistance or academic achievement-based scholarships.

Success Initiative

Del Mar College actively supports the Texas “Success Initiative.” Assessment is required to identify the readiness of entering students to enroll in academic coursework. For students needing skill improvement, the College provides developmental courses at a variety of levels to accommodate students’ individual needs. All students may take advantage of New Student Orientation, Freshman Seminar, learning labs, tutoring services, counseling, advising, and PLATO software to supplement their coursework and to meet their education goals.

Student Services

Del Mar College is dedicated to making education as accessible as possible. For that reason, a comprehensive network of student services is available to all students. More information about each of these services is available through the College Catalog or in the Harvin Student Center on the East Campus or the Coleman Center on the West Campus.
