

Business Administration

Management Information Systems

The Management Information Systems (MIS) curriculum deals with applying information technology to solve business problems. Built on a solid foundation of business and computer courses, the curriculum prepares students to enter an increasingly global business environment with rapidly changing information technology. Our information economy has created the need for a new set of managerial skills and competencies focused around the appropriate use of information technology as a key enabler of business success.

Career Opportunities

Typical entry-level positions with a bachelors degree in MIS include application programmer, systems analyst, information analyst, and end user support specialist. In addition to technical topics, the program emphasizes the management of information systems to prepare graduates to assume managerial positions such as Vice President of Information Services. In some companies, information systems are of such strategic importance that managers with an MIS background are becoming chief executive officers.

Students will develop skills in:

- Electronic business/commerce
- Knowledge management
- Enterprise integration

College Transfer

The MIS associates degree prepares students with the business and technical knowledge to transfer to an upper division university into most Bachelors of Business Administration in Management Information Systems degrees. The degree ensures transferability by meeting common core and field of study requirements as set by the Texas Higher Education Coordinating Board. Students should check specific requirements of the college or university to which they plan to transfer.

Courses in **bold type** satisfy Del Mar College Core Curriculum. Students should check specific requirements of the college or university to which they plan to transfer.

The provisions and information set forth in this statement are intended to be informational and not contractual in nature and are subject to modification without notice, by the Administration or the Board of Regents. For additional explanation refer to the Disclaimer in the College Catalog. Del Mar College does not discriminate on the basis of race, color, sex, age, national origin, religion, disability, or any other constitutionally or statutorily impermissible reason.

Business Administration

Admissions

Del Mar College maintains an “open door” admissions policy. In order to gain admission to the College and prior to registration, students must complete an Admissions File to include:

- Application for Admission
- Official high school transcript or GED test scores and/or official college transcript(s)
- Placement test scores
- Proof of Texas residency for the previous 12 months to qualify for in-state tuition

Contact the Admission Office in the Harvin Student Center (East Campus) or the Administration Building (West Campus) for information related to admission to the College.

Financial Aid/Scholarships

Financial Aid Services assists students who need financial resources to help pay their College costs. Financial Aid Services provides information on grants, loans, or employment for students with a demonstrated financial need. Many scholarships are also available for students and are awarded based on academic achievement and/or financial need.

More than 5,000 Del Mar students are eligible to receive financial aid each year. Full- or part-time students may apply for need-based financial aid programs or scholarships. The only way for students to determine their eligibility is to apply for financial aid. The best, easiest, and quickest way to apply for aid is by completing the Free Application for Federal Student Aid (FAFSA), which is available online at www.fafsa.ed.gov. Results may be available in 7-10 days. The FAFSA application itself may be mailed; however, this process may take anywhere from 4-6 weeks. The Title IV school code for Del Mar College is 003563. Please note that you must provide the previous year's income tax information regardless of the application process you choose to employ. (Dependent students **must** provide their parents' tax information as well.)

Contact Financial Aid Services in the Harvin Student Center (East Campus) or the Coleman Center (West Campus) for further information related to need-based financial assistance or academic achievement-based scholarships.

Success Initiative

Del Mar College actively supports the Texas “Success Initiative.” Assessment is required to identify the readiness of entering students to enroll in academic coursework. For students needing skill improvement, the College provides developmental courses at a variety of levels to accommodate students' individual needs. All students may take advantage of New Student Orientation, Freshman Seminar, learning labs, tutoring services, counseling, advising, and PLATO software to supplement their coursework and to meet their education goals.

Student Services

Del Mar College is dedicated to making education as accessible as possible. For that reason, a comprehensive network of student services is available to all students. More information about each of these services is available through the College Catalog or in the Harvin Student Center on the East Campus or the Coleman Center on the West Campus.
