PTAC

SMALL BUSINESS DEVELOPMENT CENTER
(a partnership program with the U.S. Small Business Administration)

Have you ever considered a home based business? Tired of doing all the work for someone else's business success? More and more people are finding that what they really want out of life and their career is to own their own successful home-based business.

This seminar is designed for individuals that are not currently in business and that are interested in starting a business out of their home or someone who has just recently started their business. It is highly recommended for individuals who have an idea, a product, or a service that may not require a commercial location to be successful.

A structured course outline will help individuals determine the viability of their business idea, organize their home-based business plan and prepare for business success.

Highlighted with sound advice from our experienced staff of business consultants, this seminar is a must for anyone starting a home-based business.
